

APPLICATION FORM FOR PARTICIPANTS

**LIFE AS USE TO BE
YOUTH EXCHANGE IN SLOVENIA**

The multilateral youth exchange will be hosted by the Drustvo za promocijo podezelja, Slovenia, and will last 10 days (travel day excluded). During the exchange, 30 young people from 5 European countries shall acquire valuable experiences of cooperation, intercultural dialogue and unbound creativity.

During the exchange, young people will exchange good experience in the field of living in the rural area, the experience on how to contribute to the improvement of it and present the situation in their countries. We will try to present and formulate concrete proposals on how the local community can improve their attitude towards life in the countryside.

Exchange will include activities and themes of awareness of young people about global challenges and consequences of human impact on the environment. We believe that young people are those who can, with their active participation, aid in the improvement of sustainable development and environmental care.
